

Regional Labour Markets (ABS Cat No 6291.0.55.001)

Latest month: September 2017

Release date: 27 October 2017

Next release date: 23 November 2017

The ABS publishes estimates for Hobart and the South East region separately. They have been combined for the purposes of this release and estimates of the participation rate for this combined region have been derived from other sources.

Monthly original estimates are highly volatile at a regional level and consequently year-average original figures are reported. Trend and seasonally adjusted data are not available for regional labour market data.

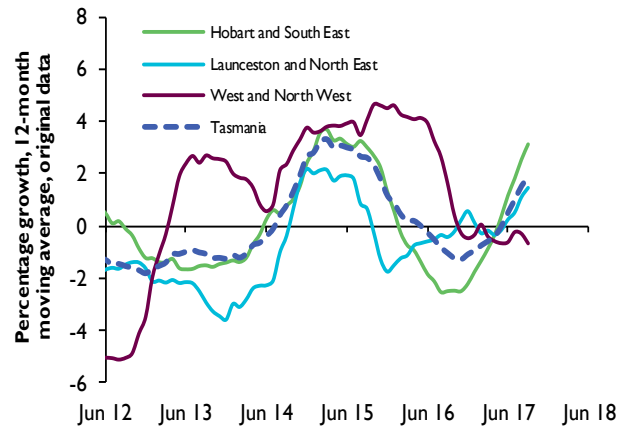

Recent performance

The ABS estimated that employment increased by 1.8 per cent (in original percentage terms) overall in Tasmania in the year to September 2017, compared to the previous year. In the year to September 2017, the Hobart and South East region recorded an increase (up 3.1 per cent or 3 800 persons), as did the Launceston and North East region (up 1.5 per cent or 1 000 persons), while the West and North West region (down 0.7 per cent or 300 persons) recorded a decrease compared to the previous year (Chart 1).

The ABS estimated that the year-average unemployment rate declined 0.6 of a percentage point overall in Tasmania in the year to September 2017, compared to the same period one year earlier. The year-average unemployment rate decreased in the Launceston and North East region (down 1.1 percentage points), the West and North West region (down 0.2 of a percentage point), and the Hobart and South East region (down 0.5 of a percentage point) (Chart 2).

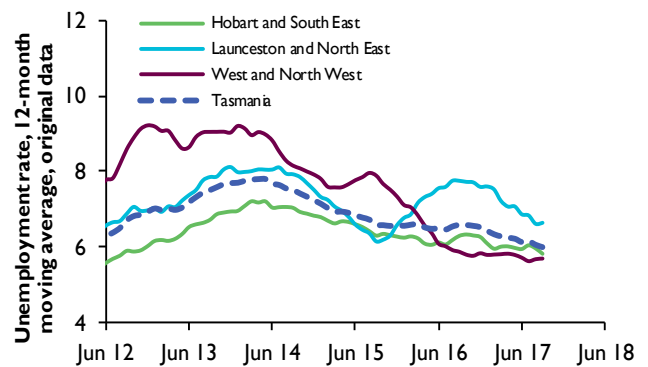

The ABS estimated that in the year to September 2017, the overall participation rate in Tasmania increased by 0.3 of a percentage point compared to the previous year. The participation rate decreased in the West and North West region (down 0.9 of a percentage point) and in the Launceston and North East region (down 0.2 of a percentage point), while the Hobart and South East region (up 1.1 percentage points) increased in the same period (Chart 3).
