

<b>Treasurer's Instruction No</b>	<b>1112</b>
Title	<b>Common use / Whole-of-government contracts and other arrangements: goods and services</b>
Effective date	<b>19 September 2017</b>
Objective and Background	<b>Provides information on the contracts and other arrangements that agencies must use for the supply of relevant goods and services.</b>
Version Number	<b>13</b>

*Black letter (or bold) items within these Instructions are mandatory and other plain font items are instructional or for the purpose of providing guidance only.*

**(I) When purchasing relevant goods and/or services, agencies must use the following whole-of-government common use contracts established by the Department of Treasury and Finance.**

These contracts have been established where a common requirement for goods and/or services across all general Government sector agencies has been identified. They increase:

- Government purchasing power through combining the procurement volume of individual agencies, affording better value for money; and
- the efficiency of the procurement process through centralising supplier selection and contract management, on behalf of all general Government sector agencies.

Further information on each contract can be located on the Contracts section of the [Purchasing website](#).

### **Contract**

<b>Number</b>	<b>Title</b>
---------------	--------------

<b>(a) A003</b>	<b>Advertising - Print Media Services for Vacancy Notices, Tenders and Public Notices</b>
-----------------	---

Description: This contract provides print media services relating to the placement of Vacancy Notices, Tenders and Public Notices in the consolidated format in the Tasmanian newspapers, and in interstate and overseas newspapers and/or journals.

<b>(b) BK03</b>	<b>Government Banking Services</b>
-----------------	------------------------------------

Description: This contract provides efficient and effective banking services by ensuring that banking fees and charges are competitive and delivering a “best practice” banking environment appropriate for Government. The contract covers the delivery of four distinct services:

- Transactional banking;
- Revenue collection;
- School banking; and
- Corporate card facility.

**(c) C106 Cartage and Interstate Air Freight**

Description: This contract is for the provision of air freight services throughout Australia providing next flight, overnight, economy, off peak and prepaid satchel services.

**(d) C141 Computer Software – Microsoft**

Description: This contract is for the supply of Microsoft licenses through the Open Government program (no minimum order size) and the Enterprise Agreement program (minimum 250 licenses).

**(e) C150 Computer Hardware and Related Services**

Description: This contract is for the provision of computer hardware and related services via a manufacturer/reseller network.

**(f) F200 Fleet Management Agreement**

Description: This contract is for the provision of management of the Government's motor vehicle fleet including purchase and disposal processes.

**(g) L300 Leasing Finance Facility**

Description: This contract enables agencies to obtain operating lease finance for:

- Personal Computers and other IT equipment;
- Photocopiers and other electronic office equipment; and
- Other equipment (to be agreed by Treasury on a case by case basis).

**(h) P450 Petroleum Products**

Description: This contract is for the provision of motor spirit and automotive diesel fuel (either in bulk or via a fuel card/reseller network), fuel oil, heating oil and kerosene.

**(i) TRMF1 Tasmanian Risk Management Fund and Public Sector Superannuation – Actuary**

Description: This contract is for the provision of actuarial services in relation to the Tasmanian public sector superannuation arrangements, the Tasmanian Risk Management Fund and other general advice.

**(j) TRMF2 Tasmanian Risk Management Fund – Fund Administration Agent**

Description: This contract is for the provision of Fund Administration Agent services for the Tasmanian Risk Management Fund, including claims administration, provision of advice in relation to claims management and the brokerage of insurance as required.

**(k) V672 Vehicles**

Description: This contract is for the provision of a comprehensive range of passenger and light commercial vehicles. The choice of vehicles available under this contract reflects the Government's mandated minimum Greenhouse CO<sub>2</sub> emissions for passenger and commercial/4WD vehicles.

More information on the minimum Greenhouse CO<sub>2</sub> emissions that apply to Government vehicles purchased under this contract is available at [Government Vehicle Emissions Policy - Frequently Asked Questions](#), or from the Tasmanian Climate Change Office at [www.dpac.tas.gov.au/divisions/climatechange/Climate\\_Change\\_Priorities/reducing\\_emissions](http://www.dpac.tas.gov.au/divisions/climatechange/Climate_Change_Priorities/reducing_emissions).

**(l) V675 Vehicles Hire and Drive**

Description: This contract is for the rental of passenger vehicles in Tasmania and throughout Australia.

**(m) TRMF Rehabilitation Service Provider Panel**

Description: These panel contracts, effective from 14 August 2017, are for the provision of workplace rehabilitation services.

In addition to the mandatory contracts above, Treasury has established the following arrangement which agencies are encouraged to utilise.

**ICT Professional Services Panel**

Description: These panel contracts, effective from 1 September 2017, are for the delivery of ICT Professional Services including project management, business analysis, infrastructure technical services, security services, application development and operational services.

**(2) When ordering goods and/or services where a relevant master ordering arrangement has been established, agencies must use the following Master Ordering Arrangements.**

**(a) A001 Advertising - Television (Master Ordering Arrangement)**

Description: The Master Ordering Agency has the responsibility for negotiating rates with each of the television stations. The Master Ordering Agency can also provide professional advice and assistance with the placement of your advertising needs.

**(b) A003 Advertising - Print Media Services for Vacancy Notices, Tenders and Public Notices**

Description: This contractor also acts as a Master Ordering Agency, providing for the negotiation of rates with each of the Tasmanian daily newspapers and major interstate newspapers. The Master Ordering Agency can also provide professional advice and assistance with the placement of your advertising needs.

**(c) A004 Advertising - Radio (Master Ordering Arrangement)**

Description: The Master Ordering Agency has the responsibility for negotiating rates with Commercial Radio Tasmania to arrange a collective discount for advertising across all radio stations. The Master Ordering Agency can also provide professional advice and assistance with the placement of your advertising needs.

- (3) **An exemption from the requirement to use the above listed contracts or ordering arrangements can only be approved by the Secretary of the Department of Treasury and Finance, or other authorised delegate.**
- (4) **An exemption from the requirement to select vehicles that comply with the mandated minimum Greenhouse CO<sub>2</sub> emissions (as notified by the Tasmanian Climate Change Office) can only be approved by the Secretary of the Department of Treasury and Finance, or other authorised delegate.**

(a) Class exemptions

Vehicles required for the following specific needs have been provided with a class exemption and no further approval is required:

- police and firefighting operations;
- patient/client transport (eg ambulances and buses); and
- towing or carrying of heavy loads (large 4WD, trucks).

The following conditions apply to these exemptions:

- that there is no compliant alternative vehicle on contract that meets the special, operational needs;
- the special, operational needs must be the predominant use of the vehicle; and
- that consideration is given to the emission levels of the selected vehicle to ensure it is as close as possible to meeting the mandatory emissions ratings.

Other class exemptions may be added to this list if the need is identified.

(b) Ad hoc exemptions

Requests for exemptions to meet an agency's operational needs not covered by 5(a) above must be endorsed by the relevant Head of Agency and will be considered by the Secretary of the Department of Treasury and Finance on a case by case basis, where it can be shown that:

- the vehicle is required to meet the driver's/work unit's day to day operational needs;
- there is no suitable alternative complying vehicle on contract that meets these specific needs;
- operational needs necessitating the exemption are the predominant use of the vehicle; and
- consideration has been given to the emission levels of the selected vehicle to ensure it is as close as possible to meeting the mandatory emissions ratings.

- (5) **In relation to Executive vehicles, the minimum Greenhouse CO<sub>2</sub> emissions for passenger vehicles will apply to all vehicles purchased for the operational and private use of SES personnel, Parliamentarians, medical practitioners and any other vehicles provided as part of an employment contract. These users will therefore only be able to select a**

commercial/4WD vehicle for their use if it meets the minimum Greenhouse CO<sub>2</sub> emissions for passenger vehicles.

- (6) **Any exemption from the policy outlined in 5 above must be approved by:**
- (a) **the relevant Head of Agency (with a copy of the approval provided to Treasury and attached to the vehicle order); or**
  - (b) **in the case where the vehicle is for the use of a Head of Agency, by the Secretary of the Department of Treasury and Finance.**

An exemption can only be given if:

- there is a predominant business operational need for that vehicle;
- there is no suitable alternative complying vehicle on contract that meets the specific needs; and
- the vehicle meets the minimum Greenhouse CO<sub>2</sub> emissions for commercial/4WD vehicles and consideration has been given to the emission levels of the selected vehicle to ensure it is as close as possible to meeting the mandatory passenger emissions ratings.

- (7) **Agencies must use the Networking Tasmania whole-of-government contracts, established by the Department of Premier and Cabinet, to obtain data communications, hosting, Internet and related services.**

These contracts establish an integrated, fully managed data network for use by Tasmanian Government agencies and other eligible customers. The contracts cover core services (including central switching, security, gateway and filtering services), connection services, data centre as a service, infrastructure as a service, internet services and Government directory services.

Agencies can also purchase a number of optional services under the contracts including local area network as a service (both fixed and wireless).

Further information on the Networking Tasmania contracts is available from [www.tmd.tas.gov.au](http://www.tmd.tas.gov.au)>TMD Networking Tasmania.

- (8) **Agencies must use the integrated communications services provided by TMD, Department of Premier and Cabinet, including fixed and mobile voice and data carriage, interconnecting service gateways and unified communications (telephony, desktop videoconferencing and instant messaging).**

TMD has arrangements in place for the supply of all the services listed as forming part of the integrated communications services.

Depending on the component, TMD may provide the services, establish agreements under which the services may be purchased, or establish technical standards relating to the services. If an agency has a niche requirement, for example in relation to security or interconnection with a system maintained by another jurisdiction or third party, TMD can assist the agency to meet that requirement while using the Government's integrated communications services and arrangements.

Information in relation to relevant arrangements established by TMD is available from the TMD website at [www.tmd.tas.gov.au](http://www.tmd.tas.gov.au).
