*Black letter (or bold) items within these Instructions are mandatory and other plain font items are instructional or for the purpose of providing guidance only.*

- (1) This instruction applies only to the procurement of goods and services and is to be read in conjunction with other Instructions relating to goods and services which are contained in the 1100 series of the Treasurer's Instructions.**

Further information on goods and services procurement, including a definition of "goods and services", can be located at [www.purchasing.tas.gov.au](http://www.purchasing.tas.gov.au)> Buying for Government.

For information on building and construction and roads and bridges procurement, refer to the 1200 series of the Treasurer's Instructions.

- (2) Agencies must consult with the Industry Capability Network Tasmania (ICNTAS), at the project planning stage, for all goods and services procurements over \$2 million, to determine the need for an Industry Participation Plan.**

An Industry Participation Plan (IPP) is a strategic document aimed at improving opportunities for local business in Government funded or resourced projects. The IPP ensures that government buyers structure purchasing processes in such a way that a project proponent considers issues relevant to the particular purchase that will impact on local participation. Such issues would include how local industry participation will be maximised and what strategies have been developed to provide local industry with a full, fair and reasonable opportunity to participate in a government project or major development.

Further information on Industry Participation Plans can be obtained from the ICNTAS at [info@icntas.org.au](mailto:info@icntas.org.au).
