I. EQUIPMENT

- 1) Roulette table layouts will be marked in a manner similar to that shown in diagram “A”.
- 2) Roulette wheels will each have 37 equal compartments with one marked zero and the others marked 1 to 36, coloured alternately red and black around the wheel. The wheels shall be configured as shown in diagram “B”.
- 3) Roulette balls must be made completely of a non-metallic substance and must not be less than 17 millimetres or more than 22 millimetres in diameter. The ball must be spun in the opposite direction to the rotation of the wheel.

2. THE BANK

No person, other than the holder of the casino licence, will have any share or interest in the bank, which will be held by the licensee or a person acting in pursuance of a service agreement on behalf of the licensee.

3. INSPECTION

An Inspector must be present while the game is in progress. That person is responsible for the conduct of the game in accordance with these rules.

4. WAGERS

- 1) Wagers may be represented either by chips marked with denominations of value or by wheel checks (i.e. chips without denomination markings).
- 2) The wheel checks of a set will each bear the same distinguishing emblem or mark to differentiate them from wheel checks of other sets in use at other tables. Each set will be subdivided into various colours.
- 3) No person will be issued with wheel checks that are identical in colour and design to wheel checks that have been issued to another person at the same table.
- 4) Where a person purchases wheel checks, the specific value to be assigned to each will be declared by that person and denoted by a wheel check and a related marker bearing a number on it to designate the value set by that person. These will be placed together on the rim of the wheel or adjacent to each other in a vertical display rack at the table.
- 5) At the discretion of the Casino Operator, a player may be issued with wheel checks of more than one colour at the same table, provided no other player as a result, is precluded from wagering with wheel checks. In such instances, the colours issued to the one player will be designated the same value.

- 6) No wagers may be placed, changed or withdrawn after "no more bets" has been announced. A winning wager may be withdrawn before the next spin.
- 7) Wagers orally declared will be accepted only if accompanied by the placing of chips, wheel checks or cash on the table and confirmed orally by the Dealer or Inspector. Cash placed on the table for any wager must be immediately converted into chips or wheel checks of an equivalent value. All bets must be placed before the ball comes to rest.
- 8) Players are responsible for the positioning of their wagers on the table, whether or not the Dealer assists them. They must ensure that any instructions given to the Dealer are correctly carried out.
- 9) Wagers will be settled in accordance with the position of chips when the ball falls to rest in a compartment of the wheel. Where it is found that chips have been moved from their original position by a third party, prior to the ball coming to rest, and this is confirmed by CCTV camera surveillance, a Management Representative may place the chips in their original position and pay the wager accordingly.

5. LIMITS

- 1) The maximum and minimum wagers permitted will be shown on a notice at the table. Unless stated on this notice, wagers are not required to be made in multiples of the minimum.
- 2) If after a result, certain wagers are found to be below the minimum or above the maximum, then according to that result a below minimum wager will be paid or collected by the Dealer in accordance with paragraph (3) of this rule and an above maximum wager will be paid or collected by the Dealer up to the permitted maximum only.
- 3) A player making a below minimum wager which is paid or collected, will be advised by the Dealer that the wager made was below the table minimum and that any further wagers less than the table minimum made by that player will be returned, regardless of the result.
- 4) Partnerships with a view to exceeding the maximum wagers will not be allowed.
- 5) Minimum and maximum wagers that differ from those displayed on the table notice may be agreed between individual players and the Management Representative. In such a case, a distinctive marker that signifies the limits so agreed will denote the position occupied by the player.
- 6) Where an individual player has agreed limits that differ from the table limits, the inspection level for that table will be as approved for the premium player gaming area.

6. SETTLEMENT

 - a) prior to confirming the winning number in the Dealer terminal, the Dealer must treat as void all wagers placed by all players for the relevant spin; or

- 7) If the Dealer is unable, for the purposes of rules 8.8.4) b) and 8.8.5) b), to confirm the relevant wagers placed through the analysis of available records

in the Dealer terminal, the Management Representative must void those wagers.

The Government Inspectorate is to be notified as soon as practicable of such an event.
- 9) Players are required to notify the Casino Operator in the event of any malfunction of an ATS at which they are playing. Failure to do so, and the retention of any prizes, chip account credit or free play as a result of an ATS malfunction or Dealer error, may be considered to be a contravention of these rules.
