

# Labour Market and Related Payments Profile

Latest month: October 2018

Release date: 28 November 2018

Next release date: 9 January 2019

The Labour Market and Related Payments Profile reports statistical information on the various types of labour market payments to job seekers delivered by the Department of Human Services on behalf of the Department of Social Services.

Long-term job seekers are defined as those who have been receiving income support payments for 12 months or longer.

## Recent performance

The number of job seekers receiving income support in Tasmania decreased by 1.9 per cent in October 2018 compared to the previous month. Nationally, the number of job seekers decreased by 0.9 per cent in the same period (Table 1).

Compared to the same period in the previous year, all jurisdictions recorded a decrease in the number of job seekers receiving income support in October 2018. In percentage terms, Victoria recorded the largest decrease (down 12.3 per cent), followed by South Australia (down 11.5 per cent) and Queensland (down 10.4 per cent) (Table 1).

The number of Tasmanian job seekers receiving income support accounted for 5.3 per cent of Tasmania's labour force in October 2018, compared to 3.3 per cent nationally (Table 2). Tasmania had the second highest rate of job seekers receiving income support of all jurisdictions as a proportion of its labour force in this period, behind the Northern Territory.

The number of Tasmanian job seekers receiving income support in October 2018 comprised around 2.7 per cent of the State's population, compared to 1.8 per cent nationally.

# Labour Market and Related Payments Profile

Latest month: October 2018

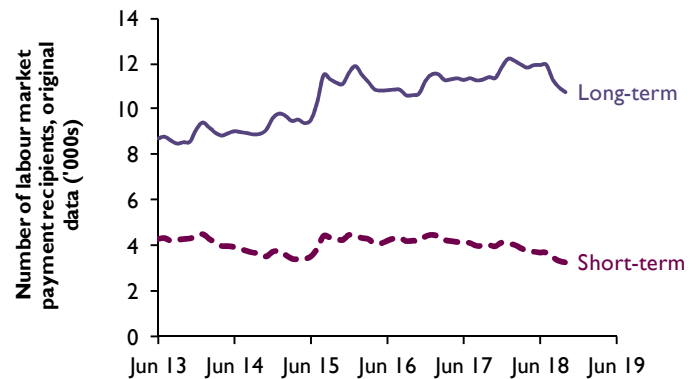

In Tasmania, the number of short-term job seekers receiving income support payments decreased by 2.0 per cent in October 2018 compared to the previous month, while long-term job seekers receiving income support decreased by 1.9 per cent in the same period (Chart 1).

At a regional level, the number of job seekers receiving income support varied in all Tasmanian regions in October 2018 compared to the previous month. The Launceston and North East region increased by 0.2 per cent, while both the Hobart and South East region and the West and North West region decreased by 2.9 per cent.

## Analysis

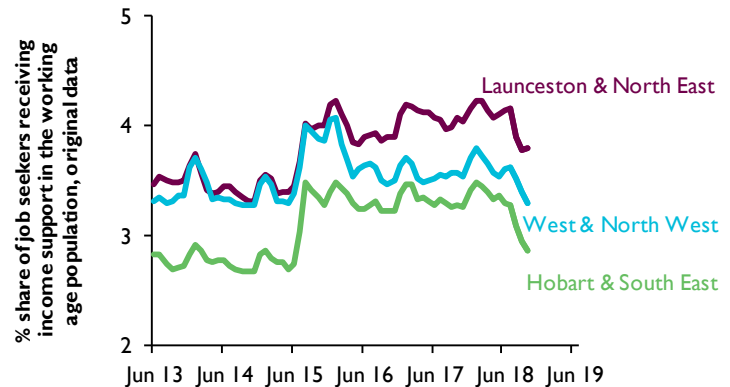

The data on labour market payments differ from the unemployment estimates from the ABS *Labour Force Survey* due to different definitions and enumeration methods. While the estimates are not directly comparable, the series tended to move together prior to July 2009 but diverged from late 2011 to mid-2015, before converging again in recent years (Chart 3).
