DEFINITIONS AND GUIDANCE INFORMATION

For the purpose of this Instruction, **'procurement processes'** includes open tenders, selective tenders and quotation processes run by an agency as well as direct/limited submission sourcing under Instruction 1114, and contract extensions approved in accordance with Instruction 1115(2).

A **'contractor'** is an individual or organisation engaged under a contract (other than as an employee) to provide goods and/or services to an agency. A contractor will usually work under the supervision of an agency manager.

A **'consultant'** is a particular type of contractor who is engaged to provide recommendations or specialist or professional advice (or more generally non-manual services) to assist or influence agency decision making. A consultant is normally expected to work without direct supervision, to exercise his or her own judgement, conduct complex research or investigations and provide advice or recommendations that form the basis for agency decision making or the taking of a certain course of action. A consultant is usually engaged by way of a short term or temporary contract.

A **'contract'** is a legally binding arrangement between an agency and a supplier for the supply of goods and/or services (including building and construction projects, and consultancies) for a specific period. The arrangement does NOT need to be in writing for a contract to arise. 'Common use contracts' are to be reported by the commissioning agency (ie Treasury for Treasury whole-of-government arrangements).

For the purposes of this Instruction, the **'period'** of a contract or a consultancy includes the period of any options to extend, regardless of whether the options are exercised or not.

For the purposes of clause (3)(b), unless otherwise stated, the **'value'** of a contract or a consultancy does NOT include the value of options to extend nor GST. However for the purposes of all other clauses, the **'total value'** of a contract or a consultancy includes the value of any option to extend, regardless of whether the options are exercised or not. An option is to be valued in accordance with the terms of the contract. Where the value of the option cannot be exactly calculated, an estimate will suffice. The value excludes GST.

The following paragraph is an example of a statement of support by a Head of Agency for local business and compliance with the procurement Instructions. Note that where no tenders were called, quotation processes run or contracts awarded, with a value of \$50 000 or over (excluding GST), this should be noted in the statement. Where there have been any major issues in relation to procurement activity during the review period, information relative to those issues should be included in the statement.

"The Department of ensures procurement is undertaken in accordance with the mandatory requirements of the Treasurer's Instructions relating to procurement, including that Tasmanian businesses are given every opportunity to compete for Agency business. It is the Department's policy to support Tasmanian businesses whenever they offer best value for money for the Government. See Table ... for a summary of the level of participation by local businesses for contracts, tenders and/or quotations with a value of \$50 000 or over (excluding GST). Tables ... and ... provide detailed information on consultancies and other contracts with a value of \$50 000 or over (excluding GST). Table ... provides a summary of contracts awarded as a result of a direct/limited submission sourcing process approved in accordance with Instruction 1114 and Table ... provides a summary of contract extensions approved in accordance with Instruction 1115(2)."
